

ICS 8900

PRODUCT DATA SHEET

BEST-IN-CLASS INTEGRATED CLEANING SYSTEM

IMPRESSIVE RESULTS

The ICS 8900 is a battery-powered, self-contained cleaning system designed for portable cleaning applications such as public restrooms, shopping carts, display cases and locker rooms. The touch-free ICS 8900 provides low-pressure cleaning and sanitizing, as well as clean water rinsing, through a spray nozzle using low-flow/low-pressure technology.

A UNIQUE COMBINATION OF MOBILITY AND TOUCHLESS CLEANING

The ICS 8900 is the latest evolution in mobile integrated cleaning systems and the best-in-class solution for touch-free restroom cleaning. Easy-to-use, the ICS 8900 cleans faster and has less environmental impact than most automated systems. The cordless functionality of the 8900 gives users more mobility than power cord models. At cleaning sites, simply turn the power on; select your chemical and start cleaning. The task of cleaning is easier than before, ensuring it will be done well, consistently!

LOW-PRESSURE BENEFITS

The cleaning chemicals are applied by spray nozzle at pressures less than 100 psi:

- Protecting fixtures and grout from water damage
- Reducing the risk of spray-back of bacteria-contaminated water
- Optimizing solution usage

USER-FRIENDLY DESIGN

The simplicity of the ICS 8900 reduces ongoing maintenance requirements.

It was designed with the user in mind, offering:

- A compact size that can be used even in small areas
- Battery-powered operation
- Spraying and rinsing spray patterns
- 12-gallon fresh water tank
- Extended cleaning range with 15 ft. of discharge hose
- A hose hanger, providing safety when not in use
- Large back wheels
- Lockable casters on front
- Chemical holders for two round or F-style 1-gallon containers
- Option to dispense up to four chemicals
- Storage holders with mop clips on side; storage area on top of cart

THE ICS 8900 CAN BE USED IN A WIDE VARIETY OF MARKETS AND APPLICATIONS:
