

Power to clean faster, easier, better!

Nothing scrubs faster, easier or better than the SonicScrubber! That's because SonicScrubber has Sonic Cleaning Action.

Cleaning Action Utilizing high speed oscillations (back and forth action), the SonicScrubber powers through the toughest cleaning challenges without stalling.

The SonicScrubber has a unique technology enabling significant torque or power while delivering over 3,600 scrubs per minute. The SonicScrubber does the scrubbing so you don't have to! The SonicScrubber's back and forth Sonic Cleaning Action scrubs the surface evenly, making the SonicScrubber powered tool completely balanced and easy to use.

JBPLM BRUSH

Large brush with firm bristles tackle the toughest and most stubborn surface grime. Great for cleaning microwave, stove top, oven, grout, in and around sinks, faucets, window-tracks, and more.

JBPM BRUSH

Firm bristles tackle the toughest and most stubborn surface grime. Great for cleaning microwave, stove top, oven, grout, in and around sinks, faucets, window-tracks, and more.

JBPC BRUSH

Cone shape helps you detail clean areas that otherwise are very challenging to scrub like in corners and grooves. Cone brush works great for car & truck detailing, motorcycles, golf clubs and other sports equipment, muddy shoes, toys, and more.

JBPS BRUSH

Features soft bristles that won't scratch or damage most surfaces. Use on surfaces prone to scratching. Also great for cleaning fabric and upholstery stains, and carpet stains.

30% More Power to Clean Faster, Easier, Better -- no more manual scrubbing!

- Oscillating brushes for high speed back and forth scrubbing.**
- Effective for hard-to-reach and difficult-to-clean areas.**
- Works great with your favorite cleaning solutions.**
- Angled head prevents knuckle scrapes and broken nails.**
